To Whom it may concern,

I wish to express my deep sense of gratitude to NAC SPCA for being there for me when I was hospitalized with back surgery this year. Charlie and his staff were known to me through my work with Kindness, Inc., and personal friendships so I had every confidence in their program and care my 5 dogs would receive.

They kept my dogs for a month and never was money an issue. I was able to not only have my much needed surgery, but have time to recuperate before I needed to expend energy caring for my dogs.

I would recommend Charlie and his staff to anyone needing the same services. The NAC SPCA has looked at pets and their peoples lives to see where there are needed services and then acted to make them a reality. In serving animal issues of Abuse, Neglect and Abandonment, they also serve people in the most humane way.

I highly recommend this Animal Welfare Agency to anyone for their original vision, creativity in implementation, and commitment to their community.
